A Report: Seminar on “3D printing – Print Your Imagination...”

A seminar on “3D printing – Print Your Imagination...” was organized for students of Mechanical department on 24th of September 2016, at BITS Edu Campus. Mr. Ronaksinh Parmar (Owner of Utpal 3D system pvt ltd - Ahmadabad) was invited as the expert.

The seminar and live demo and was initiated and coordinated by Dr Santosh G Shah, Director (Innovation) for Mechanical department students.

Floral welcome of the Speaker by Director(Innovation)

The seminar started at 3:00 pm. The Director(Innovation), HOD and faculty members of Mechanical Department and the students were present.

Mr. Rinak sinh explained various types of 3D printers, their working principle, the advantages and disadvantages of various printers and the variety of applications of 3D printers. The expert also demonstrated some 3D printed models. The curiosity among the students was at very high level and they were quite excited to know more about this advanced technology. The students asked many questions and the expert answered them upto their satisfaction level and cleared all the doubts.

Mr. Ronaksinh, Delivering his talk

Audience trying to understand the 3D Printing Technology

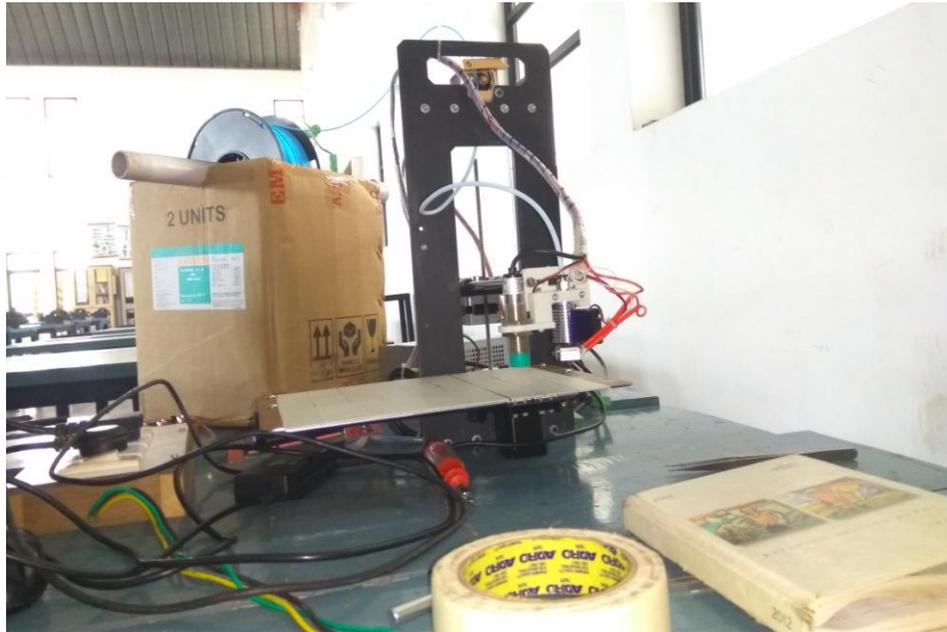

At the end, Shri Sudhir K. Patel (Campus Director) presented the memento to Mr. Ronak as a token of appreciation and love on behalf of the management of BITS Edu Campus.
