

Report on Blood Donation Camp at BITS Edu Campus.

Blood donation is one of the most significant contributions that a person can make towards the society. As a part of National Service Scheme (NSS) activity **Blood Donation Camp** was organized on 26th September 2016 at our institute with the support of Suraktam Blood Bank.

The students always focus on teaching learning processes, but along with that, little love and service to society and hence, nation by conducting such activities can be inculcated in student.

BITS faculty members, Students and NSS volunteers showed active participation during this camp. Girls are precious for family and society in addition they equally contributed in blood donation as well. During this event we collected more than 200 units of blood.
