CITY COLLEGE STUDENTS WILL BE IN SPAIN FOR A TRAINING PROGRAMME

Babaria Institute of Technology and Science, Vadodara (fondly known as BITS) right from its establishment in the year 2004 has been a torchbearer in innovations and has always been a guiding light for all the other engineering institutes in terms of how the technical education should be imparted to the aspiring and budding engineers of the nation. In a yet another attempt to break the clichés, it has signed an MOU with University of Catolica De Murcia (Spain) under which 12 students will be attending a three week summer training programme at this university. Students will be travelling along with a faculty mentor from the institute from June 29 and return on July 21.

This programme is a substantial value addition for students as it will give them an invaluable international exposure. The entire tie up process was quite rigorous wherein various universities from US, Canada and Europe were explored for this short study programme and finally Spain was selected for the same. There were 20 open positions for this short study programme and stringent criterion were set for the student selection procedure. Representatives from UCAM were present for the selection procedure which incorporated aptitude test followed by personal interviews. This three weeks programme will be conducted in three different subjects viz 1) Video Technology and applications in events 2) Fundamentals of 3D digital design and additive manufacturing 3) Big data fundamentals and applications in bioinformatics.

Out of the 12 selected students seven are civil engineering students, three students are from mechanical engineering, and one each from electrical and electronics and communications engineering. Apart from providing all the assistance to students in terms of visa assistance and relevant documentation, BITS has organized Spanish language lectures for one hour everyday post the comple-

KEY HIGHLIGHTS

- Lush Green Campus with wi-fi facility
- Well ventilated ICT enabled class rooms
- Fully Equipped High-tech UG & Research Laboratories
- Financial help for the development of Innovative Projects
- Education Aid to the children of widows under the scheme of Vidhava Sahay Kanya Kelavani Fund & Vidhava Kuldipak Kelavani Fund
- Cash awards/Merit Scholarship to University Rankers
- Skill Enhancement Programmes for the Students & Staff Members

tion of their routine educational sessions. Apart from the learning opportunity this programme will give students a chance to explore Spain as weekends are exclusively assigned for cultural tours and exploring different parts of Spain. Many of these students are aspiring for further studies abroad so this will act as a stepping stone for them, along with that this will be a vital value additions as far as the placements are concerned.

BITS has been a frontrunner in imparting world class professional education in the field of engineering and technology. It offers professional education in the field of mechanical engineering, computer science engineering, electrical engineering, civil engineering and electronics & communication engineering, pharmacy and physiotherapy. Institute

also offers PG programmes in the field of mechanical engineering and E&C engineering. It is an internationally accredited institute (rating: A+++ by IAO, USA).

Spread in a lush green campus, with 225 faculty members, trained from reputed institutes and 89 administrative and supporting staff members BITS is imparting best technical education to more than 3900 students. The institute has six academic departments and equipped with 58 high-tech laboratories and 47 ICT enabled class rooms. The presence of highly qualified faculties backed by exemplary technical and supporting staff and an effective administration resulted in receipt of 'The campus preparedness award' in 2015, which was hosted by Higher Education Forum, Pune; 'Excellence in Education Award 2015' at National Gujarat Summit and Awards 2015 wherein 100 colleges contended, they have also received "Most Innovative Private Engineering College in Gujarat" by Global Education Excellence Awards 2016, New Delhi"

This institute has transformed its vision with utmost dedication and commitment into bringing profound benefits to the society. It's truly remarkable.
